MILES SAILS AT LAST.

Landing Point In Forto Rico Is a Secret.

MAY WAIT FOR FULL FORCE.

Powerful Convoy Sent Along With Transports.

THEY HAVE ALL BEEN TESTED.

It Is Thought the Expedition May Land Next Sunday, the Day of the Week on Which All Important Events of the War Have Transpired.

Washington, July 22.—General Miles, leading the military expedition against Porto Rico, started at 3 o'clock Thursday afternoon from Slboney, Cuba, for the point on the island of Porto Rico where it is the Intention that the troops shall land.

It is expected that General Miles will wait at some appointed spot on the route for the expeditions from Tampa, Newport News and New York to fall into his column.

These expeditions are already under way, some of them with two or three days' start of General Miles, so that the deiay should not be very great.

After all the difficulty about the naval convoy; and the first conclusion of the naval authorities that none was necessary, the strength of that now furnished is surprising.

There is a battieship of the firstclass, an effective protected cruiser, a speedy and well armed gunboat and four auxillary vessels of the navy which have already proved by their performance in Cuban waters that they are fully equal to the ordinary gunboat in offensive powers.

Secretary Alger helleves that General Miles will arrive at his destination Sunday morning with 3,000 men under his immediate command. A day later will come 4,000 men on transports and the day following that 3,500 more.

Whether the landing will be deferred until the arrival of this entire force or whether General Miles will take the initiative and holst the flag himself on Porto Rican soll is left to the discretion of that officer.

It is the department's determination that he shall not lack for troops or equipment and this first expedition may be followed by several others as fast as the troops can he gotten ready, until word comes from the general that he needs no more."

General Scwan's brigade, comprising the Fifth, the Eleventh and Nineteenth United States Infantry, a splenbody of trained soldlers, sailed Campa to join General Miles, and to Rican expedition is not success It will not be for lack or position in the war department to supply every requisite.

NO QUESTION ABOUT DEWEY. That Admiral Dewey has the sltuation in the Philippines well in hand is exhibited by his telegrams, the latest of which was received Thursday, which, without boasting, simply reports like the others that have gone before, that affairs are quiet and satir Ctory.

The state department has come to have fully as great a sense of appreciation of Dewey's diplomatic ability as the country has for his naval skill and courage and the best evidence of this is that it has not found it necessary up to this point to interfere.

The navy department has now discovered that the big double turretted mohitor Monterey will not arrive at Cavite until August 5, that being the advice received at the department from the captain of the vessel when she touched at Honoiulu.

The admiral's anouncement of the arrival of the second detachment of United States troops at Cavite has given great comfort to the war department which was not altogether at case concerning the first small expedition lying between Spanlards and the insurgents and without being able to depend very largely upon either.

With these added troops it will now possible to demand the surrender of Manilla, but it is gathered here that our purpose is to defer such a movement until all the United States troops affoat have arrived in Manilla bay uniess the attitude of the insurgents s action on the part of the American commanders, military and naval.

SPAIN WILL BE VISITED. retary Long said that the preparations for dispatching the Watson squadron to European waters were great uninterruptedly, but that the arture necessarily would await the menty of the twarships at: Porte the Massachusette ellapder other

ships being required for convoying the troops to Porto Rico.

Neither the state nor navy department looks for any embarrassment from European quarters outside of Spaln as a result of the naval movement against the peninsula. During the day orders were sent to Norfolk to burry forward work on the colliers which are to accompany the Watson expedition.

Had the army troopships been able to go to Porto Rico without a naval convoy, the Watson squadron could have got away within the next few days, as the war board had wished to close ali preliminaries by next Saturday. But as the battleship Massachusetts, crulsers Columbia, Cincinnati, Dixie and Yale, together with several lesser craft, were considered necessary as a patrol for the Miles' expedition, this changes the plans slightly.

The Lixie is almost certain to be in the Watson squadron, and the Massachusetts is likely to be. Secretary Long expressly says, however, that the delay of the Watson squadron is incldent to convoying the troops to Porto Rico and does not mean that the start will be postponed until the Porto Rico operations are concluded.

The report from Barcelona that the people were so fearful of the approach of the Watson squadron that they were urging France to establish a protectorate over all the Catalona district, including Barcelona, was dis-missed by Ficials and by members of the diplomatic corps hest informed on the affairs of France, as fantastic speculation, quite unwarranted by any actual movement now on foot. It is sald to be thoroughly well established that France is not lending a helping hand to Spain in any of her affictions.

An Important Report. Washington, July 22 .- 'The navy department has obtained a very striking conception of the tremendous power of a shell bursting within the inclosure of a battleship, from a report which has just been received at the department from Captain Taylor of the Indiana. Aslde from the actual bursting energy of the shell described by Captain Taylor, it is perceived from his report that great danger was experienced from fire, owing to the fact that the Indiana is not, like some of the battleships of later construction, fitted with fireproof wood throughout. It is safe to assume that this report, taken in connection with the destruction of the Spanish vessels in large part by fire off Santlago, will lead the navy department to redouble instead of relax its efforts to protect the American warships against fire by all known scientific means.

Canteens Closed.

Chickamauga, Ga., July 22.—Persistent petitioning and letter writing by wives and mothers of the soldiers has had the effect of closing up three of the regimental canteens at Camp Thomas. It is said that several others are scheduled to go in the near future. Colonel Hartsuff, the chief surgeon at the camp, is not a friend of the canteen, and is doing all in his power to discourage the use by the men of alcoholic beverages. The women of the W. C. T. U. have made an appeal to eneral Brooke, and have gained his sympathy, but he is powerless, for the reason they are provided for in the army regulations.

Garcia Disgusted. New York, July 22.—A Santiago special says that General Garcia has wrltten a letter to General Shafter declaring that he is disgusted at his treatment at the hands of the Americans, and will therefore withdraw his forces to the hills. Among the things of which General Garcia complains is the fallure of the American commander to officially notify him of the surrender of the Spanish force under General

Duffield to Be Sent Home. Washington, July 22.-No official reports were obtainable at the war department as to, the yellow fever conditions among the troops at Santiago. The efficials are resting easy, however, under the assurance conveyed by Dr. Greenleaf that the disease is mild in type. Instructions have been sent to General Shafter to have Brigadier General Duffeld sent north to the United States.

Postal Order Modlfied.

Washington, July 22.—Postmaster General Emory Smith issued the following order: "In conformity with the order of the president of this date, my order No. 161 of the 26th of April last prohibiting the dispatch of any mail matter to Spain or her dependencies is modified so far as to permit postal communication between the United States and Santiago, Cuba."

Personnel of the Convoy. Washington, July 22.—The war department posted the following:

"Playa del Este, Cuba, July 21. Massachusetts, Dixie, Gloucester, Cin-

cinnatl, Leyden and Wasp go with Yale and Columbia. We expect to sall MILES." at 3 o'clock.

Colonel Bryan Speaks.

Atlanta, Ga., July 22.—Colonel W. J. Bryan, at the head of the Third Nebraska volunteers, reached Atlanta at noon. Colonel Bryan was met at the train by several personal frlends, who started to escort him to the Klmbali. By the time the party reached the doors of the hotel, the crowd became so dense that progress was impossible. Colonel Bryan graciously responded to the cheers and cails for a speech, and

mounting a stone hitching block, said: "I am glad to be with you again. I am greatly pleased that my regiment will have an opportunity of seeing the confederate veterans, and know that ln our present struggle they will have an opportunity to fight with some of these old soldiers and their sons.

There were 100 mcn quartered at Cape Smythe, 76 of these in the old Kelly house and the remainder divided up between Charile Brower's and the old refuge station now run by Professor McIlheny. They were ln want of food and clothing, which were at once supplied.

Lleutenant Jarvls, who led the land expedition which arrived at Port Barrow ahead of the Bear, made nearly 2,000 miles in 102 days, and his arrival put an end to the ice-locked men. He first boarded the Belvidere and was greeted by Captain Nillard, who at once informed him of the condition of the fleet. The arrival of tame reindeer and of the Bear party put an end to the fears of the men, and there is no danger of further distress.

A Tricky Contract.

Washington, July 22.—In a report to the state department United States Consul Dudley at Vancouver, B. C., says that care should be taken by those who contemplate going to the gold fields in entering into transportation contracts. Certain companies have obtained a considerable sum of money (generally \$500 for each person) upon very ingeniously worded contracts that the persons paying should be transported to the gold fields in the north with all necessary outfit furnished and expenses pald. In three cases in which men have paid their money they have been brought at slight expenses to Vancouver and other ports and then abandoned.

Social Clubs Exempt.

Washington, July 22.-The commissioner of internal revenue in a decision holds that although a social ciub selling wines and liquors to Its members and their guests is required to pay a special tax as a retall liquor dealer, it is not required to pay special tax as a proprletor of a billiard room, as the new law specifically states that it relates only to howling alleys and bil-

The Bedford Contribution.

Bedford, Ind., July 22.-James Whitted, living near here, klifed a garter snake in which, upon dissecting, he found 4,600 young garters, which had taken refuge down their mother's throat. Mr. Whitted is backed by a number of reliable neighbors who witnessed the killing of the parent snake and its progeny.

No Pardon For Bianks.

Frankfort, Ky., July 22.-Governor Bradicy overruled the petition for the pardon of Bob Blanks, sentenced to be hung at Mayfield for rape. Governor Bradley sent soldiers to protect Blanks from being hung by a mob.

A Long Racer Killed. Dillsboro, Ind., July 22.-Louis Veite of this place, while at his farm on Hogan's Hill, killed a blue racer which measured 18 feet and 11 inches ln length.

Will Remain in Cuba.

Washington, July 22.—Secretary Alger sald that the troops which were in the engagements at Santlago would not be sent to Porto Rico, and there was no desire to use them there. They will remain in Cuba until yellow fever has been entirely stamped out. General Mlles dld not think it advisable to take any troops to Porto Rico that were liable to have contracted fever, and ln this the department concurred.

Tae Longest Tow.

San Francisco, July 22.—The gunboat Iroquois is about to make the longest tow ever undertaken. She is to haul the ship Tacoma from San Francisco to Manilla by the way of Honoiulu, a distance of about 6,600 miles. The Tacoma is to carry 100 horses and 120 mules and a coal supply.

SCHLEY CHEERS

The Men Behind the Guns For the Santiago Victory.

[New York World.]

A message of eongratulation to Commodore Schley for his victory over Cervera was signalled to him from Sampson's flagship.

The men on the Brooklyn, Indiana and other ships went mad with enthusiasm for their commander and cheered themselves hoarse in his honor.

"Thank you, boys, but I didn't do it. You are the boys who did it. Let the officers cheer the crew."

And the officers did so with a will. And when that was over Schley ealled out again: "To the men behind the guns!" and the officers again paid tribute to the jackies with all of voice that they could command.

Now, with this spirit animating officers and men there is not the slightest doubt that the fleet will do deeds worthy of Hull and Decatnr and Farragut whenever and wherever they meet the enemy.

CARRY STAMPS

In the Back of Your Watch CaseLis the Best Way.

[New York Sun.]

"Business men have various ways of carrying their postage stamps," said the stamp clerk the other morning, while sitting in his chair at the stamp window in -Mrs. W. O. Gianl and children, of the general postoffice. "A good [many men who post their letters here always have one or more stamps about them. Some of them carry their stamps in stamp cases, but the economical man carries his stamps under the band of his hat or in his pockets.

> The other day a young man called for 'five twos,' and, putting one on a letter which he had to mail, he took out his watch, and, opening the back of it, slipped the remaining stamps into the case. They don't stick to the cover, and that is about the best way one can carry stamps, if he has a watch."

THE FOURTH REGIMENT.

It Will Become a Part of the Volunteer Army Next Monday-Sunday's Excursion.

The Lexington Leader says: "Monday is the day on which Governor Bradley will present the commissions to the officers of the regiment and then the Fourth Kentucky Infantry will be a part of the volunteer army and ready to receive the orders of the Adjutant General of the United States army. The short time in which Col. Colson has gotten this body day. of 1,300 men together and had them mustered into the army is little short of wonderful. It is barely a month since the first recruits began arriving and yet in spite of the poor facilities for transportation, no uncleus on which to build, this regiment has been organized and is now in a fairly good state of discipline.

"The man on whom has centered the burden of the work of raising the Fourth is its commander—Col. David G. Colson. In the first place, it was through his influence that Kentucky was allowed a regiment instead of two battalions under the second call. Then he assumed the work of getting the men together. To his home people he gave the preference, and it is from Eastern Kentucky that the men have come. Under his hand the organization has progressed rapidly and smoothly and now he has the finest body of men that has left Kentucky. They will go from here, not as did the others, but with all clothing and equipments. The last step to be taken in which the Fourth Regiment will be made a part of the volunteer army will take piace Monday, when Maj. Ballance will verify the company muster rolls and muster the regiment in as a whoie. On the same day Governor Bradley will resent the commissions.

The Fourth Regiment will likely be ordered South or to Camp Alger as soon as it is mustered into service, and Sunday's excursion to Lexington wili probably afford the last opportunity of visiting the boys at Camp Corbin. The L. and N. offers the low rate of \$1 for the round trip from Maysville, and it is expected that a large crowd will go up to witness the presentation of the flag to Company B.

TO BE HELD IN INDIANAPOLIS

Will Be the Meeting of the Imperial Palace, Kulghts of Khorassan, Which Is Not a Part of the Kulghts of Pythias.

Indianapoiis, July 22.-The Dramatic Order Knights of Khorassan will take a prominent part during the week of the biennial encampment of the uniform rank and the biennial convention of the supreme lodge, Knights month.

The encampment opens on Monday, August 22, and on the same day will begin the session of the Imperial Palace, Knights of Khorassan. The order is not a higher degree or a branch or side rank of the Knights of Pythias but it is requisite for membership that the applicant be a member of the Knights of Pythias.

It is intended as a means of cultivating the social side of life and of bringing Pythians in a closer relationship, being to some extent similar to the Mystic Shrine in Masonry.

The Yakoot Temple, with headquarters in this city, was organized April 16, 1897, and now has about 300 members. It embraces ail the territory of about 50 counties of the state and under the laws of the order Knights living anywhere in this territory can beiong only to Yakoot tempie.

The sessions of the Imperial Palace, or highest tribunal of the order, will continue through three days. All votaries may attend the sessions but only city only four years, has been twice the regularly elected representatives may vote and take part in the proceedings. During each night the tempie wili confer the secret work on candidates.

For this purpose it is the intention to obtain the use of Tomlinson hall if possible. Teams from Detroit, Goshen, Chicago, Evansville, Battle Creek and probably one or two others wili be here to aid in this work.

By a special dispensation granted through S. E. Earp, imperial nawab, by Colonel John A. Hinsey of Chicago. imperial prince, authority is granted to confer this secret work upon all who may go in with classes at the originai price charged to charter members. Yakoot Temple is also authortzed to confer the degree upon ail comers who are eligible regardless of residence.

On the night of Thursday, Augus 25, there will be a spectacular street parade in which all the 8,000 or more members of the order (Arabs they are called) wili participate.

They will wear the costiy and eiaborate silk and plush gowns worn in the temple. This will likely close the part of the Knights of Khorassan in the week's doings. A banquet wiii probably follow the parade.

OKLAHOMA.

Something of Its Wonderful Growth in a Few Years-Its Great Natural Resources.

[Euquirer.1 Colonel Amos Green, of Oklahoma City, Ok. T., familiar to many people in several States, was at the Grand Wednesday on his way to his wife's old homestead in Mason County, Kentucky, near Dover. Colonel Green is a native of Virginia, but came to Kentucky when a young man, and was admitted to the Covington bar with John G. Carlisle. He married Miss Bledsoe, of Mason County, a relative of the distinguished United States Senator Jesse Bledsoe. Colonel Green lived in Louisville for a time, and was extensively engaged in mining enterprises. He was President of the company that established the Kansas City Times. Of late years he has been a resident of Oklahoma City, where he and his son are engaged in the practice of law. Of that coming

Southwest country he said: "Oklahoma Territory has now a population of 300,000 whites and only 8,000 Indians, and an area of 45,000 square miles, over 5,000 more square miles than the State of Ohio. It is a very fertile and resourceful land. Many of its acres will yield over 30 bushels of wheat this season, and there will be an average yield of 18 or 20 bushels throughout. The corn crop promises a magnificent yield, and

the cotton prospect is splendid. "Oklahoma City has a population of 15,000, electric lights, fine waterworks, three railroad lines, and a fourth line will be completed by October, giving us a one-mile nearer communication with St. Louis. We are on the North Canadian river, which gives us a bountiful water supply, in a glorious climate, where the rainfall from January to September is 32 inches, ali sufficient for the maturity of crops, fruits and vegetables. It is getting to be a great fruit producing region, and the coal resources in the Indian Terri-

acres of land in Oklahoma Territory will be opened to purchase and settlement at \$1.50 an acre, 160 acres being reserved for every Indian. Thus \$6,000,000 will go to 2,000 Indians, and they will have homesteads of 160 acres reserved besides, which can not be sold. The Indians will all be rich. A vast area in the Indian Territory is to be thrown open likewise to purchase and white settlement, onefourth of the domain each year. There are now 40,000 whites in the Indian Territory, and within five years the two territories will have a white population of 500,000. We are working to have Oklahama and the Indian Territory erected into a grand State, and this will be effected in the course of another national Ad- charm in music they knew not of before. of Pythias, to be held in this city next ministration. That would present to the constellation of States a commonwealth with an area of 68,000 square miles, one of the most resourceful and inviting regions on earth."

THE new Democratic Prison Commissioners will take charge of the penitentiaries August 1st.

DURING the recent visit of Mrs. P. T. Kaighn, of Dayton, to relatives in this county, a pet dog belonging to her died, apparently of a broken heart. The canine was a great pet of the family and when she left the dog refused to eat and gradually pined away, dying, to all appearances, from grief.

COLONEL V. H. Perkins, better known as "Bud," formerly of this city, has been nominated by the Democrats of Chicago for County Commissioner, a place which pays a salary of \$7,000 per year, and his prospects for election are said to be excellent. He has been a resident of that elected City Supervisor, made the race for Congress and is now the nominee for an office that pays a salary of \$2,000 more than a Congressman receives.

Portugal Is Worrled.

Lisbon, Portugai, July 22.-Owing to the suspension of the constitution in Spain the Portuguese government has ordered reinforcements of troops to be dispatched to the frontier, fearing Spanish uprisings and the entry of revolutionists into Portugese territory, as has been the case in the past.

PITHY POINTS.

It looks like the Administration was bent on making a "hot house" plant ont of General Lec. So long as saloons are allowed to make men lazy, trifling and vicious, the whipping post is a matter of necessity.

There'll be enough gold, pure and unaduiterated, for the Democrats to contend with in the Congressional race.

It looks like there ought to be some Democrat found in the district able to beat the Lewis County crowd, headed or tailed with a renegade from the Democratic party.

Who might be found so feelhardy as lo affirm that a man who indulged in stealing his neighbor's chickens or honey or vegetables had any elaim above that offered by a whipping post.

There wouldn't be one chicken stolen where now there are whole broods taken, were the thieves certain they would be treated to the refreshment offered by a whipping post.

THE things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautifui iandscape and see all the beauty and restfuiiness and grandness that there is in it. Another one wlli look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Goiden Medical Discovery makes people well. There isn't anything miraculous about it-it is the most natural thing in the world. It slinply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Reep a stream of pure, rich, red blood flowing into a disease spot, and the disease will not stay. A man lives on rich pure blood, and the disease dies on it.
